PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Engineering student with a strong foundation in **Java, Object-Oriented Programming (OOPs), and Data Structures & Algorithms**. Passionate about building scalable software solutions and exploring modern cloud-native technologies. Adept at problem-solving, leveraging Cloud Computing (AWS, IBM Cloud), and developing responsive web applications. Seeking an opportunity to apply analytical skills and technical knowledge in a dynamic software engineering team while continuously learning enterprise-level frameworks like Spring Boot and modern software development practices.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core & Advanced), Python, SQL, JavaScript, HTML5, CSS
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Design, Computer Networking, Operating Systems, Database Management
- **Frameworks & Libraries:** Django, Pandas, NumPy, Matplotlib
- **Cloud & Tools:** AWS, IBM Cloud, Git & GitHub, Version Control, Big Data, MS Office, Netlify
- **Soft Skills:** Problem Solving, Team Leadership, Event Management, Critical Thinking

EDUCATION

Babu Banarasi Das University B.Tech. in Computer Science & Engineering	Lucknow, UP 2023 – 2027
• Current CGPA: 6.16 / 10	

Saraswati Shishu Mandir Hr. Sec. School (CBSE) Class 12 th (Senior Secondary)	Gorakhpur, UP 2022
• Percentage: 59.50%	

Saraswati Shishu Mandir Hr. Sec. School (CBSE) Class 10 th (Secondary)	Gorakhpur, UP 2020
• Percentage: 68.17%	

PROJECTS

Medicine Recommendation System	<i>Self-Project</i>
• Developed a logic-driven recommendation system that analyzes user-input symptoms to suggest suitable medical treatments and generic medicines. • Engineered a user-friendly interface using HTML, CSS, and JavaScript for seamless data entry and processing. • Implemented algorithmic data handling and recommendation logic to improve accessibility to basic healthcare information.	

PT. Harivansh Educational Academy Website	Live Link
• Designed and deployed a fully responsive, multi-page web application for an educational institution using modern web technologies. • Implemented intuitive UI/UX navigation for admission details, academic programs, and contact inquiries. • Optimized application performance across multiple devices and successfully deployed the platform on Netlify for global public access.	

Developer Portfolio Web Page	Live Link
• Created a dynamic personal portfolio using HTML, CSS, and JS to showcase software engineering projects, technical skills, and achievements.	

- Utilized Git for version control and deployed the website via GitHub Pages, demonstrating proficiency in continuous integration workflows.

CERTIFICATIONS & HACKATHONS

- **Kalpathon (Hackathon):** Participated in a coding hackathon to design and develop a functional web application for real-world problem-solving. Extensively used Git/GitHub for branch management and team code integration. (Apr 2025 & Apr 2026)
- **Introduction to Cloud by IBM:** Mastered core concepts of Cloud Infrastructure (IaaS, PaaS, SaaS), Virtualization, Scalability, and Deployment Models.
- **Data Analysis with Python by IBM:** Acquired hands-on experience in data handling, statistical analysis, and visualization using Pandas and NumPy.
- **Prompt Engineering for Everyone by IBM:** Learned to design optimized prompts for Large Language Models (LLMs) to enhance AI-assisted software development workflows.
- **IBM SkillsBuild - Web Development Basics:** Solidified foundational knowledge of client-server architecture, modern styling, and responsive web design.

LEADERSHIP & EXTRACURRICULARS

Assistant Coordinator & Technical Volunteer – Utkarsh Annual Fest (BBD University) *Feb 2025 & Feb 2026*

- Managed and set up technical infrastructure for university-wide annual events and coding competitions.
- Collaborated with organizing committees to resolve real-time technical bottlenecks and ensure smooth event execution.
